Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The stuffing and dosing machine is believed to be in condition for allowance and is being passed onto issue. The prior art of record does not anticipate nor render obvious with proper teaching(s) the claimed invention. The claimed invention is directed to a tilting hopper provided with a top opening having a hermetic cover and a narrowed base associated with an antechamber that leads to the inlet of at least one stuffing chamber connected to an outlet duct via a connection ensemble. At least one piston driven by driving means to perform a stroke covering a first section in said antechamber and a second section in said stuffing chamber. A means for stirring said material to be stuffed and dosed that is in said hopper and drive it towards the said antechamber. Additionally, the hopper, cover and narrowed base form a first structural unit that can pivot around an articulation between a first position and a second or cleaning position. The application is believed to be in condition for allowance and is being passed onto issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
